

Keep your inboxes clean

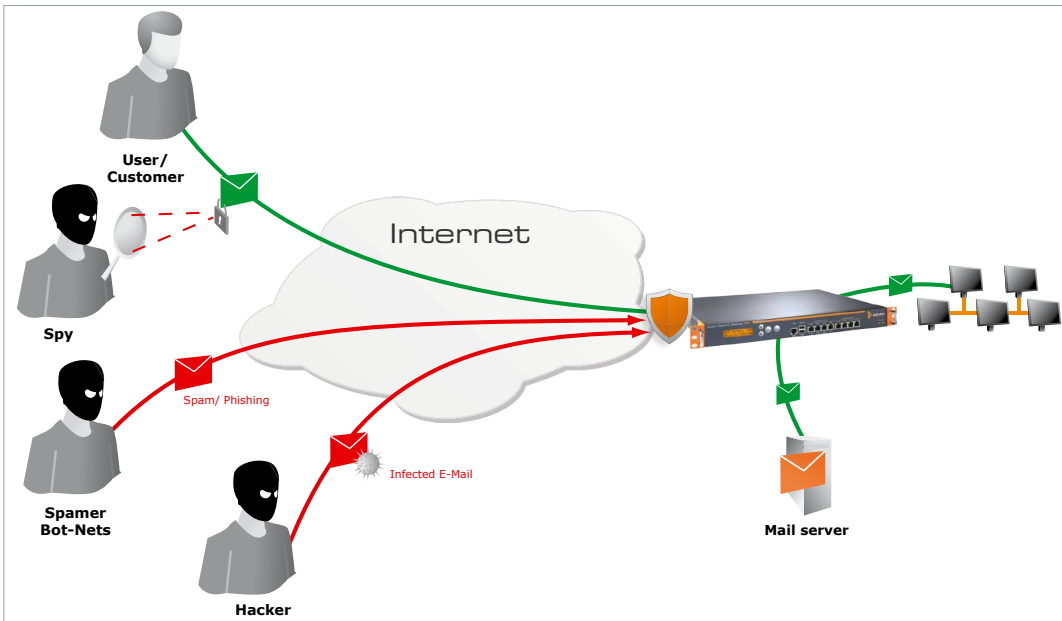

E-mails spread the majority of harmful content that damages network environments today; spam messages clog users inboxes, and unprotected e-mail messaging can carelessly disclose sensitive information or even violate compliance regulations.

The Astaro Security Gateway Mail Security subscription combines accurate, high-capacity mail filtering and encryption with convenient mail management tools for administrators and employees.

Try Now!

Test Mail Security free for 30 days at:

Technical Specifications

Appliance	ASG 110	ASG 120	ASG 220	ASG 320	ASG 425	ASG 525	ASG 625
Recommended Users	10	25	75	200	600	1300	2000
E-mail Throughput (seen E-mails/h)	250,000	250,000	400,000	600,000	1,200,000	1,500,000	2,200,000
E-mail Throughput (scanned E-mails/h)	30,000	30,000	52,000	78,000	130,000	200,000	250,000

Features

Antispam

- > Reputation service with spam outbreak monitoring based on patented Recurrent-Pattern-Detection technology
- > Advanced spam detection techniques: RBL, heuristics, SPF checking, BATV, URL scanning, greylisting, HELO & RDNS checks, expression filter, recipient verification
- > Block spam and malware during the SMTP transaction
- > Detects phishing URLs within e-mails
- > Global & per-user domain and address black/white lists
- > Recipient Verification against Active Directory account

Malware scanning

- > E-mail scanning with SMTP and POP3 support
- > Dual antivirus engines with over 800,000 patterns
- > Archived and compressed attachment scanning with deep-level support
- > Scan embedded mail formats
- > Blocks malicious and unwanted files with MIME type checking
- > Quarantine unscannable or oversized messages
- > Filter mail for unlimited domains and mailboxes
- > Automatic signature and pattern updates via Astaro's Up2Date service

Encryption

- > Transparent en-/decryption and digital signing for SMTP e-mails
- > Completely transparent, no additional software or client required
- > Supports S/MIME, OpenPGP, and TLS standards
- > PGP key server support
- > Allows content/virus scanning even for encrypted e-mails
- > Central management of all keys and certificates - no key or certificate distribution required

Management

- > User Quarantine Report mailed out daily at customizable times
- > Customizable UserPortal for end-user mail management, in 15 languages
- > Anonymization of reporting data to enforce privacy policy
- > Over 50 Integrated graphical reports
- > PDF and CSV exporting of reports
- > Daily, archivable executive reports delivered by e-mail
- > Customizable e-mail footers and disclaimers
- > Setup wizard and context sensitive online help
